### III. POST-APPROVAL REVIEW

#### 1. Objectives

This SOP describes how the UPMREB processes post approval submissions by the Principal Investigators. Depending on the nature of the submissions, they may be processed by either expedited or full board review. This chapter describes submission procedures, required forms, documentation of board action, communication of board action to the PI, and filing of results.

#### 2. Scope

This SOP applies to all study protocol-related submissions after approval has been issued for the study protocol and study protocol-related documents. These submissions include requests for amendments, continuing review applications, final reports, non-compliance (deviation or violation) reports, early study termination, queries from stakeholders, serious adverse event reports (SAEs) and suspected, unexpected serious adverse reactions (SUSARs), report of pregnancy (RP) and site visit reports.

#### 3. Responsibilities

It is the responsibility of the PI to comply with post-approval review requirements, including the registration in the Philippine Health Research Registry (PHRR) upon approval of the study protocol, and submission of required reports listed in **UPMREB FORM 4(B) 2019: CERTIFICATION OF APPROVAL** while study is in progress.

The Secretariat Staff is responsible for receiving and processing all submissions, including inquiries or complaints from research participants and other stakeholders. Original primary reviewers are responsible for reviewing these post-approval submissions.

In the event that a Site Visit becomes necessary, it is the responsibility of the Chair to form a Site Visit Team, the responsibility of the assigned members to conduct the Site Visit and issue a report for presentation in the panel meeting, and responsibility of the Secretariat Staff to organize the Site Visit.

## DETAILED INSTRUCTIONS

### 4.1. Study Protocol Amendment

#### 4.1.1. *Receipt and management of the Study Protocol Amendment package upon submission*

- 4.1.1.1. A study protocol amendment is a written description of a proposed change(s) to or formal clarification of a protocol and/or informed consent documents that is yet to be implemented. Favorable opinion or approval should be obtained from the UPMREB Panel that issued the ethical clearance or approval prior to the implementation of an amendment.
- 4.1.1.2. A study protocol amendment is facilitated through the submission of fully accomplished **UPMREB FORM 3(A) 2012: STUDY PROTOCOL AMENDMENT SUBMISSION FORM** with the amended study protocol or protocol-related documents by the principal investigator to the UPMREB Panel that issued the ethical clearance or approval to the study protocol. This comprises the study protocol amendment package.

### III. POST-APPROVAL REVIEW

- 4.1.1.3. The principal investigator registers amendment application in iREB and submits a complete amendment package once the submission has been accepted upon notification by the Secretariat Staff. Alternatively, the principal investigator will submit via email in case iREB is not available.
- 4.1.1.4. The Secretariat Staff checks the initial approval date and date of last continuing review approval to identify whether the protocol has valid ethical clearance. If the ethical clearance is about to expire, the Secretariat Staff will ask the PI to submit a continuing review application with the amendment submission. But if the ethical clearance is already expired, the Secretariat Staff will ask the PI to include justification letter for their inability to submit the continuing review application **30 days** prior to the expiration of the ethical clearance.
- 4.1.1.5. The Secretariat Staff checks the iREB submission for completeness and forwards the submission to the iREB account of UPMREB Coordinator for classification of review. Alternatively, the Secretariat Staff screens and sends the submission via email, in case iREB is not available.
- 4.1.1.6. Upon receipt of the study protocol amendment package, the Secretariat Staff notifies PI that their submission is acknowledged and logs the date of submission on the **SUBMISSIONS AND ISSUANCE LOG [UPMREB FORM 4(M)2012]**.
- 4.1.1.7. For SJREB protocols, a parallel submission with UPMREB and SJREB will be observed for UPMREB to facilitate processing of protocol submission (See **SOP III-7: SINGLE JOINT RESEARCH ETHICS BOARD SUB-WORKFLOW FOR POST-APPROVAL SUBMISSIONS**).

#### 4.1.2. *Classification of Review by the UPMREB Coordinator*

- 4.1.2.1. The Secretariat Staff forwards the iREB submission to the account of the UPMREB Chair/Coordinator for classification of review as expedited, or full board. Alternatively, the Secretariat Staff screens and sends the submission via email, in case iREB is not available.
- 4.1.2.2. A full board review is necessary if the proposed study protocol amendment increases risk to study participants, as assessed by the
